

USB Lock Standard

Information protector

Protects information inside

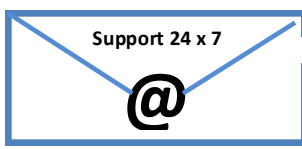

<p>✓ PCs, or Laptops</p>  <p>by controlling the use of:</p> <ul style="list-style-type: none"> ■ Storage Removable Drives: <ul style="list-style-type: none"> • USB (Thumb drives, iPod, MP3 players .) • Smart Cards (CF, SD, MMC, XD....) • Other Removable drives (Zip, floppy drives ...) ■ Compact discs: <ul style="list-style-type: none"> • CD's, • DVD's ■ Transceivers <ul style="list-style-type: none"> • Infrared (IrDA) • USB Bluetooth. 	<p>✓ USB thumb drives or smartcards</p>  <p>Portable protector</p> <ul style="list-style-type: none"> • Drag & Drop functionality • Auto destroys protected files after 4 wrong password entries. • 128 bit hash key to cipher all data content. • Create as many protectors as needed • Runs within usb drive (operates in other PCs)
--	--

Also reports the names of **extracted files by usb** storage or smartcards. (USB Aware capability included)

Advantages:

- **Real-time protection** working at operating system level, **without affecting the normally used usb peripherals:** keyboards, mouse, most printers, scanner, v-cams etc.
- **Presents full screen alert** when unauthorized device usage is attempted, **personalized with the end-user company logo** (logo inclusion applies only to business use orders)
- **Capable of running on manual or automatic mode.** On auto mode while a usb storage device is set as usb token (usb key). The insertion of the usb token device will automatically unprotect allowing the immediate use of all devices normally, and its removal protects the system automatically. (a **second usb token key can be set for company officer** or another user)
- Operates on any PC or Laptop **running Windows XP or Vista** (32 or 64 bits) **without affecting performance.**

- Easy to use
- Protects all user accounts on the PC
